

Patio Heaters

GatherCraft values the importance of spending quality time with family and friends. We also know the benefits of creating an inviting space to gather with loved ones during any time of the year. Enjoy time on your patio or deck this cold winter with our standing patio heaters.

These powerful metal heaters are 87" tall and come in a variety of colors and finishes. Whether you want a gold-hammered coated heater or a stainless steel heater, they all have a large heating radius that is sure to warm even the coldest of patios and decks. They are Propane or Butane powered, producing an odorless flame, which allows owners to entertain guests on chilly winter nights.
